CIRRUS

Turning Data into Information

Cirrus Data is a custom data service offering, with tens of thousands of Namibian and other indicators, covering an enormous spectrum of data. The custom system allows users to easily access, utilize and visualize data. On top of the data system, you will find extensive analysis and analytical tools to help you turn this data into useful information.

Core services available through the system:

Dashboards

- Macroeconomic
- Fixed income
- Equity

Extensive Reports

- Listed companies
- Macroeconomic
- Fixed Income
- Politics
- Other updates

Data-series downloads

- Thousands of data sets
- Millions of data points
- Downloadable in Excel format

Excel add-in

- Direct download, search and updates via Excel add-in

*All institutional subscriptions allow for multiple users, provided username email domains are the same.
